Crème De Nuit 50ml
A gentle, fragrance-free hydrating anti-ageing night crème.

R419
AA/00057/20

Rooibos is sifted to separate dust and non-uniform cuttings. Then, it is fed through state-of-the-art sterilization, pasteurization and drying machines to ensure the final product can be certified as hygienic superior quality Rooibos. Stringent bacteriological and quality control is ensured throughout the production process.

It's the season of giving and what better way than with Rooibos? As we celebrate the festive season and international tea day on the 15th, we should remember that Annique and the Rooibos it was founded on is deeply rooted in giving freely to others – whether it is giving people a chance to improve their health or beauty concerns by using Rooibos or assisting them in becoming financially independent by selling Rooibos-based products. Give the gift of Rooibos.
