"My family has been drinking the Lifestyle Shake for breakfast since my children were in primary school (they are now students). Our medical aid is never depleted because we don't really get sick. My daughter doesn't drink the Shake during December and January and as a result she gets severe menstruation cramps. The Shake helps give the body minerals and thereby relieves the cramping. I do annual slimming clubs and it really helps for weightloss, but also for overall health, self-confidence and gives more energy."
